

# FTP Upload Specifications

## MMT Print File Transfer for FTP

- Logon to the MMT generic FTP account using your FTP client software
- All files must be compressed prior to uploading, Stuffit is available from :-  
<http://www.stuffit.com/index.html>
- FTP accounts do not automatically notify that the artwork has been uploaded
- When you have completed the upload, contact MMT Print Customer Service

## FTP Client Software For MAC or PC Users

- You will need FTP software such as “FileZilla”, a free download available from:  
<https://filezilla-project.org/index.php> or just use your preferred FTP Client Software
- Open this software program which will have the following format

<b>SERVER</b>	enter the connection	<b>ftp.mmtprint.com</b>
<b>USER NAME</b>	enter the user name	<b>art</b>
<b>PASSWORD</b>	enter the password	<b>mmt0900</b>
<b>PORT</b>	enter default ftp port	<b>21</b>

- Then click “connect” & drag and drop the compressed files you wish to transfer

## Accessing FTP MMT Print using a WEB Browser
